Presentation on Probation's Juvenile Data Mining

- Acting Deputy Chief Probation Officer (DCPO) Kim Shean provided a presentation regarding the Department's Juvenile Data Mining review.
- Those present discussed the report and Acting DCPO Shean answered Commissioners questions.

Commissioner Report

- The Chair advised that the current inspection report is a bad format and is not user friendly. He will follow up with Probation to get inspection dates to add to the reports.
- John stated the Commission might need to look at how they conduct facility inspections. It might be best to have a three person team and spend the majority of a day at the facility; speak to the youth and to the Manager. Perhaps focus on 3-5 items with each inspection, not the 25 currently included in the inspection report as it is too many.

Closed Session

- Commissioners discussed the incident that took place at Santa Maria Juvenile Hall on Christmas, nothing to report out.

The next meeting of the JJRPC is scheduled for February 9, 2018.
